

Anderson Hair Sciences Center is Proud to Announce They Have Completed Their 100th ARTAS Hair Restoration Procedure

Dr. Ken Anderson, FACS, the founder and director of the Anderson Hair Sciences Center is proud to announce that they have completed their 100th ARTAS hair restoration procedure on August 28th, 2014.

Atlanta, GA - September 4th, 2014

The proud owner and director of the Anderson Hair Sciences Center, Dr. Ken Anderson, FACS has announced they have completed 100 ARTAS hair restoration procedures. Dr. Anderson is a highly trained Facial Plastic surgeon, however, over the last 10 years he has focused his career on the art of hair restoration. Truth is many hair restoration surgeons are never trained in surgery at all because there is no board certificate or specialty training required by law.

Dr. Anderson is not only a double board certified surgeon for facial plastic surgery and Otolaryngology, but he one of very few hair restoration specialists with 7 years of specialty surgical training after receiving his medical degree. US regulations permit this procedure to be done by technicians and several hair restoration specialists will perform 2 surgeries a day. At the Anderson Hair Restoration Center, they strictly [only schedule 1 hair restoration surgery](#) a day to allow the whole team to focus on one patient for the entire day and make sure to give the attention and care each patient deserves. Which is why after **10** years of dedication to hair sciences, they have officially completed their 100th hair restoration procedure on August 28th, 2014 using the world famous [ARTAS robotic system](#).

Dr. Anderson is the first and only hair restoration surgeon in Georgia to offer this cutting edge technology, known as the ARTAS Robotic System. This revolutionary device is a state-of-the-art, surgeon-controlled medical device that safely and [accurately extracts portion of follicular units](#), which is otherwise manually done. ARTAS has become very popular because it is a [minimally invasive hair restoration treatment](#) that does not require any plugs or stitches. ARTAS has the Gold medal from the 26th Edison Awards, which is an international award ceremony that honors innovation. In addition, Dr. Anderson has received the Okinawa Award for his presentation about Follicular Unit Extraction procedures which was delivered by the Japan Society for Clinical Hair Restoration.
