

Double Board Certified Plastic Surgeon and Hair Loss Specialist Debuts New Responsive and Interactive Website

Dr. Ken Anderson of the Anderson Center for Hair has launched a newly revamped, user-friendly website

Atlanta, GA – August xx, 2016

Dr. Ken Anderson of the Anderson Center for Hair is excited to announce the launch of his newly-designed website. Ever-committed to customer care, the new website redesign makes it easier for potential patients to reach out and connect with Dr. Anderson for any questions, concerns, or consultations. Dr. Ken Anderson has elicited the help of San Diego-based medical website and design firm Aesthetic Brand Marketing to help him build a stronger online presence.

Thanks to its wealth of information, his website is also becoming a valuable tool for patients seeking answers for hair restoration and hair loss treatments. The simple, drop down menu gives visitors immediate access to page after page of information on the procedures that Dr. Anderson offers: robot-assisted hair restoration surgery, follicular unit extraction (FUE), follicular unit transplantation (FUT), platelet rich plasma (PRP) with ACell treatment, low-level laser therapy, Revivogen, and more. Because Dr. Anderson always makes sure that patients are informed, each of these pages contain important details on procedure, recovery, alternatives, and risks.

Dr. Anderson is dedicated to patient comfort and has devoted an entire section of his website to explaining his philosophy towards patient care.

The new website is also highly adaptable to multiple devices; the website works perfectly whether it's being used from a tablet, smartphone, or a computer.

About Dr. Ken Anderson

Dr. Ken Anderson is not only a double board certified specialist on plastic surgery and hair loss; but he is also an educator, illustration, and researcher. Dr. Ken Anderson became the founder and director of the Anderson Center for Hair because he believed in the restorative, confidence-building power of hair loss restoration. Dr. Ken is passionate about making the experience of treatment as positive and supportive as possible. Dr. Ken personally meets with each patient for their consultation and performs the procedures himself.
