

# Esteemed New York Plastic Surgeon Now Offering Revolutionary New Breast Implant

---

Double board certified plastic surgeon Dr. Kevin Tehrani is now one of the few doctors in the world offering one of the most advanced breast implants in the market.

New York & Long Island, NY – August xx, 2016

Double board certified plastic surgeon Dr. Kevin Tehrani of Aristocrat Plastic Surgery is now one of the few doctors in the world that offer the IDEAL breast implant.

Dr. Kevin Tehrani is joining a limited network of board-certified surgeons that can perform breast augmentation using IDEAL implants. After an extensive US clinical trial, IDEAL was approved by the FDA in 2014.

The IDEAL breast implant is one of the latest advancements in implant technology; it's expertly engineered to be stronger, safer, and look more natural than other breast implants in the market. The IDEAL breast implants' complex structure consists of a series of shells nested together while two separate chambers hold a filler of saline. This structure decreases implant folding which leads to ruptures, giving the IDEAL implant a large amount of durability. IDEAL's outside edges are also lowered, allowing it to contour along the chest wall in a more natural way. Because of its design, IDEAL implants are able to move and feel more like actual breast tissue.

Dr. Tehrani emphasizes the use of state-of-the-art methods when it comes to his practice, and the IDEAL implant is no exception.

## About Aristocrat Plastic Surgery

With locations in New York and Long Island, Aristocrat Plastic Surgery was founded by esteemed plastic surgeon Dr. Kevin Tehrani. He's certified by the American Board of Plastic Surgery and a fellow of the American College of Surgeons. He is also a member of the American Society of Plastic Surgeons and is the Chief of the Division of Plastic Surgery at SUNY Downstate Medical Center.
